

IPEX GDPR Charter

As a trusted and professional supplier, **IPEX** guarantees its clients:

- An IT infrastructure, procedures and processes developed to comply with **GDPR** guidelines;
- A maximum security in data exchanges with clients;
- The storage of customer data on our own secured servers. Storage on the European territory and without cloud solutions;
- The use of customer data in the strict framework of the defined mission, never for our own purposes;
- The retention of client data according to contractually agreed terms;
- A clearly defined mission framework;
- The principle of transparency, especially in the case of the use of a subcontractor. We make sure the subcontractor is **GDPR** compliant and ask the prior agreement of our clients;
- A secured processing and production center;
- A highly sensitized and trained staff, bounded by a strong confidentiality clause;
- A **GDPR** compliant staff management;
- A Data Protection Officer;
- An immediate information and assistance to our client In case of confidentiality breach
